Career Technical Pathways
Health Science Programs Pathway

The **Health Science Programs** at Holmes Community College can lead to a very exciting and successful career. Program options provide successful graduates the ability to enter the workforce in as little as one year in some areas. Opportunities in the fields of Associate Degree Nursing, EMS, Health Care Assistant, Massage Therapy, Occupational Therapy Assistant, Physical Therapist Assistant, Practical Nursing, and Surgical Technology give those interested in the health sciences many different career areas from which to choose. Admission requirements for these programs are listed on their individual program pages.

Associate Degree Nursing Program

Program Description

The Associate Degree Nursing Program is a two-year program designed to provide educational opportunities to qualified students for a career in nursing. The program responds to the expanding health care needs of the community. The curriculum includes a balance of general education, nursing theory, and laboratory/clinical experience. Graduates receive an Associate of Applied Science degree (AAS). Graduates that meet the requirements of the State Board of Nursing are eligible to write the National Council Licensure Examination for Registered Nurses.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Associate Degree Nursing program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Have official verification of a minimum composite score of 15 on the ACT if taken before October 28, 1989, or a minimum composite score of 18 on the ACT if taken after October 28, 1989. **ACT scores must be on file with the Office of Admissions & Records at Holmes Community College prior to completing the Health Sciences application.**
- Provide official transcripts from all schools and/or colleges attended to the Office of Admissions & Records. Applicants with any college credit must have a minimum grade point average of 2.0 on prerequisite courses completed to be considered for the program. Students may apply and be accepted prior to completion of prerequisite courses; however, prerequisite courses **MUST** be successfully completed prior to beginning program coursework.
- Complete and submit the Health Science Programs application (located in MyHolmes), selecting Associate Degree Nursing, by the appropriate deadline.
- Must have successfully completed with a C or better the following courses **before program start date**:
 - BIO 1613 Nutrition or FCS 1253 Nutrition
 - BIO 2514 Anatomy & Physiology I
 - BIO 2524 Anatomy & Physiology II
 - BIO 2924 Microbiology

Career Technical Pathways

When the deadline for Associate Degree Nursing closes, data analysis will provide a scoring for all eligible applicants, and candidates will be chosen according to ranking.

After notification of acceptance, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. All information concerning the requirements below will be provided after class selection:

1. Passage of physical examination per Health Examination Report
2. Current certification of CPR Basic Life Support by American Heart Association
3. Passage of a healthcare criminal background check
4. Passage of drug screening
5. Current and complete immunization record (Form 121)
 1. Varicella and Hepatitis B Titer
 2. Influenza
6. Tuberculosis Skin Test, QuantiFERON-TB Gold, or Chest x-ray

Program Curriculum

Generic Program

First Year

First Semester		Second Semester	
Nursing I	NUR 1119	Nursing II	NUR 1229
English Composition I	ENG 1113	Human Growth & Dev	EPY/PSY 2533
General Psychology	PSY 1513		
Total	15 hrs.	Total	*12 hrs.

Second Year

First Semester		Second Semester	
Nursing III	NUR 2119	Nursing IV	NUR 2239
Humanities/Fine Arts Elective	3	Manage/Nursing Care	NUR 2243
Total	*12 hrs.	Total	*12 hrs.

Total Hours for Generic Program - 66

*Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Career Technical Pathways

Enrollment in NUR courses is limited to students who have been admitted into the ADN program. Nursing courses must be taken in sequence. The prescribed curriculum plan is to be followed unless exceptions are approved by the ADN Chair and the Director of Health Science Programs. Without this approval, the student may not be allowed to progress. Once students are enrolled in a course in the program, they are required to take all remaining coursework with Holmes Community College unless written permission is granted by the Chair of the Associate Degree Nursing Program.

Associate Degree Program Options (Accelerated/Bridge Program for LPN/Paramedic)

Individuals who have completed an accredited practical nursing program or an accredited paramedic program and hold the practical nursing license or a paramedic license or certification may be eligible to enter the Accelerated Program for LPNs and Paramedics. LPNs must have 500 hours or 6 months of medical-surgical experience. Individuals who have completed an accredited paramedic program and hold a valid current unencumbered professional license or certification may be eligible to enter the Accelerated program for LPN/paramedic. Paramedics must have at least one year of field experience verified by letter from employer. Upon completion of this program, the student is qualified to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

Option One - 12 Month Program

In addition to pre-requisites already listed, Option One requires passage and completion of an additional 9-hour coursework: ENG 1113 – English Composition I, PSY 1513 - General Psychology, and PSY/EPY 2533 - Human Growth & Development.

Summer Semester

Nursing Trans I	NUR 1316	Nursing Trans II	NUR 1326
Total	6 hrs.	Total	6 hrs.

**Career Technical Pathways
First Year**

First Semester		Second Semester	
Nursing III	NUR 2119	Nursing IV	NUR 2239
Humanities/Fine Arts Elective	3	Manage/Nursing Care	NUR 2243
Total	*12 hrs.	Total	*12 hrs.

Total Program - 66 hours**

**LPNs/Paramedics are given 6 hours credit toward graduation for their prior LPN/Paramedic training.

*Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Option Two - Four Semester Program

First Year

First Semester		Second Semester	
Nursing Theory I	NUR 1116	Nursing Theory II	NUR 1226
English Composition I	ENG 1113	Human Growth & Dev	EPY/PSY 2533
General Psychology	PSY 1513		
Total	*12 hrs.	Total	*9 hrs.

Second Year

First Semester		Second Semester	
Nursing III	NUR 2119	Nursing IV	NUR 2239
Humanities/Fine Arts Elective	3	Manage/Nursing Care	NUR 2243
Total	*12 hrs.	Total	*12 hrs.

Total Program - 66 hours**

**LPNs/Paramedics are given 6 hours credit toward graduation for their prior LPN/Paramedic training.

*Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Career Technical Pathways

Mission Statement

The purpose of the Holmes Community College Associate Degree Nursing Program is two-fold:

1. To prepare registered nurse generalists who have attained competency. Competency is identified as a performance standard, which includes knowledge, abilities, and understanding that goes beyond specific tasks and is guided by commitment to ethical and scientific principles of nursing practice.
2. To provide equal access to higher education for traditional and non-traditional students while promoting excellence in all areas of nursing.

Program Accreditation

The Associate Degree Nursing Program is accredited by the Board of Trustees of State Institutions of Higher Learning of Mississippi (www.ihl.state.ms.us) and the Accreditation Commission for Education in Nursing (ACEN). The Accreditation Commission for Education in Nursing can be contacted at 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326 (www.acenursing.org), Phone: 404-975-5000, Fax: 404-975-5020 for specific program information.

Career Technical Pathways
Health Science Programs Pathway
Emergency Medical Sciences
EMT, Advanced EMT, and Paramedic Program

Program Description

Emergency Medical Technician

Emergency Medical Technician is a one-semester instructional course that prepares the individual to provide basic emergency medical care and transportation for critical and emergency patients who access the emergency medical system. Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight, trained in airway management, communications, documentation, general pharmacology, hemorrhage control, ambulance operations, and splinting of adult, pediatric, and infant patients; and special care of patients exposed to heat, cold, radiation or contagious diseases. Students who complete the program are eligible to take the National Registry of Emergency Medical Technician Cognitive and Psychomotor Exams and become state certified.

Advanced Emergency Medical Technician

This course is designed to prepare the student to function competently as an Advanced Emergency Medical Technician as described in the National EMS Scope of Practice Model. The primary focus of EMS providers at this level takes the skill and knowledge set of the EMT and adds new skills and treatment modalities for critical and emergent patients who access the emergency medical system. The Advanced Emergency Medical Technician functions as part of a comprehensive EMS system and functions under medical oversight to provide emergency care at a higher level than EMT level providers but less than that provided by a Paramedic level provider.

A student must successfully complete the EMS course sequence listed before eligibility to test NREMT AEMT exam is granted.

Career Technical Pathways

Paramedic

The paramedic is an allied health professional whose primary focus is to provide advanced emergency medical care for critical and emergent patients who access the emergency medical system. This individual possesses the complex knowledge and skills necessary to provide patient care and transportation. Paramedics function as part of a comprehensive EMS response, under medical oversight. Paramedics perform interventions with the basic and advanced equipment typically found on an ambulance. The paramedic is a link from the scene into the health-care system. Paramedics possess the knowledge, skills, and attitudes consistent with the expectations of the public and the profession. Paramedics recognize that they are an essential component of the continuum of care and serve as links among health resources.

Paramedics strive to maintain high quality, reasonable cost health care by delivering patients directly to appropriate facilities. As an advocate for patients, paramedics seek to be proactive in affecting long-term health care by working in conjunction with other provider agencies, networks, and organizations. The emerging roles and responsibilities of the paramedic include public education, health promotion, and participation in injury and illness prevention programs. As the scope of service continues to expand, the paramedic will function as a facilitator of access to care, as well as an initial treatment provider. Paramedics are responsible and accountable to medical direction, the public, and their peers. Paramedics recognize the importance of research and actively participate in the design, development, evaluation, and publication of research. Paramedics seek to take part in life-long professional development and peer evaluation, and they assume an active role in professional and community organizations.

The paramedic training program is a postsecondary program drawing its students from individuals who already possess a valid EMT national certification. Classroom instruction is comprehensive including a working knowledge of all anatomy, physiology, and pathophysiological processes as well as competency-based instruction in assessment and management skills required for treatment of life-threatening problems in the adult, pediatric, and geriatric patient. Clinical internship requires participation in care of patients in a hospital emergency department that provides medical control to ALS providers in the field and, according to availability, CCU, ICU, labor and delivery suite, operating room, psychiatric ward, pediatric ward, and geriatric ward. Field internship is done with an ambulance service and/or rescue service providing advanced life support services to the community. This training program is sanctioned by the Mississippi State Board of Health.

Career Technical Pathways **Critical Care Paramedic**

The Critical Care Paramedic Program is a post-secondary program drawing its students from individuals already possessing a valid Nationally Registered Paramedic and Mississippi Paramedic certification. The Critical Care Paramedic (CCP) will teach current paramedics to provide for the on-going care of a critically injured or ill patient during an inter-facility transport and in other special situations such as rotor wing or fixed wing transport. The program is intended to expand the knowledge base and skill set of the paramedic beyond the level of the entry level paramedic to perform special critical care assessments and treatments.

Instruction is provided through comprehensive approach to include a complex knowledge of anatomy, physiology, and pathophysiological processes as well as competency-based instruction in critical care assessment and critical care management skills required for the care of complex critical care neonatal, pediatric, and adult patients. Clinical internship is required in specific critical care specialties in the hospital and transport environment.

To be eligible to achieve CCP Certification through the Mississippi Bureau of EMS, participants must successfully complete all components of the CCP program and pass the FP-C or CCP-C exam. The CCP program prepares students to take the Certified Flight Paramedic (FP-C) or Critical Care Paramedic (CCP-C) exam.

Paramedics seeking an AAS degree must request articulation of 30 hours of initial paramedic education. Upon completion of the prescribed technical and academic coursework, students may be eligible to receive the Critical Care Paramedic AAS degree.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Emergency Medical Sciences program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Must be at least 18 years old or be a Dual Enrollment student (**MUST BE 18 YEARS OF AGE TO TAKE NATIONAL REGISTRY EXAM**).
- Must be a high school graduate or GED equivalent or be a dual enrollment student.
- Provide official transcripts from all schools and/or colleges attended to the Office of Admissions & Records. Applicants with any college credit must have a minimum grade point average of 2.0 on prerequisite courses completed to be considered for the program, if applicable.

Career Technical Pathways

- Additional program requirements are listed for Advanced EMT, Paramedic and Critical Care Paramedic

Advanced Emergency Medical Technician

- Must have a current National Registry EMT certification in good standing.
- Must have or be able to obtain a current Mississippi EMT certification.

Paramedic

- Must have a current National Registry EMT or AEMT certification in good standing.
- Must have or be able to obtain a current Mississippi EMT or AEMT certification.
- Must have completed 4 of the required 8 semester hours of Anatomy and Physiology with lab from an accredited post-secondary school with a grade of C or better prior to enrollment; A&P II is in the curriculum for any students who have completed only A&P I prior to enrollment; A&P I and II must each be completed with a grade of C or better.
- Students enrolling in Option 2 of the Paramedic Program must successfully complete EMS 1593 Paramedic Bridge with a grade of C or better to enter the second semester of the paramedic program.

Critical Care Paramedic

- Must have current Nationally Registered Paramedic.
- Must be a current Mississippi-certified Paramedic in good standing prior to clinical*.
- Must present proof of three years' experience as a Nationally Registered Paramedic**.

*Subject to Mississippi EMS: The Law, Rules, and Regulations.

**Other MS-licensed healthcare professionals, such as Physicians, Physician Assistants, Nurse Practitioners, Registered Nurses or Respiratory Therapists with a minimum of three years' experience may, at the program director's discretion, take the courses to improve their understanding of critical care medicine if they meet the college's entrance requirements, provide official copies of transcripts, are in good standing at the time of clinical, and pass a drug screen and criminal background check. These participants, however, are not eligible for licensure as a Critical Care Paramedic in the State of Mississippi or to receive the Critical Care Paramedic AAS.

Career Technical Pathways

After notification of acceptance to the Emergency Medical Sciences Program, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. All information concerning the requirements below will be provided after class selection and/or during the mandatory orientation session:

1. Passage of physical examination per Health Examination Report
2. Current certification of American Heart Association Basic Life Support Certification
3. Passage of a healthcare criminal background check
4. Passage of drug screening
5. Current and complete immunization record

Mission Statement

The mission statement of the Emergency Medical Sciences Program is to provide quality cognitive based education and clinical opportunities that enables highly motivated students to become a competent and ethical EMS professional and an exemplary representative for Holmes Community College. By completion of a Holmes Community College EMS program, the students will demonstrate through the successful completion of written, oral, and clinical competencies a thorough understanding of the out-of-hospital approach to patient treatment, implementation of effective treatments of patients throughout the life span, and participate in the management of EMS systems.

Health Care Assistant Program

Program Description

The Health Care Assistant Program prepares individuals to assist in providing health care as a member of the health care team under the direction of a health care professional. Students who complete the program may qualify for employment as Homemakers, Nurse Assistants, Long-term Care Aides, or Home Health Aides in the Mississippi health care industry. This program will continue to create a pathway for students to enter the Health Science field at many different levels.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Surgical Technology program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Be at least 18 years of age at time of program start date.

After notification of acceptance, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. All information concerning the requirements below will be provided after class selection and/or during the mandatory orientation session:

1. Passage of physical examination per Health Examination Report
2. Current certification of CPR Healthcare Provider C
3. Passage of a healthcare criminal background check
4. Passage of drug screening

Program Curriculum

Massage Therapy Program

Program Description

The Massage Therapy program prepares the individual to provide massage therapy principles, ethics, and business applications. The program aims to prepare the students to successfully complete the program, earn employment in their field of study, and attain applicable technical assessments.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Massage Therapy program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Be at least 18 years of age at time of application to the program.
- Have official verification of a minimum composite score of 12 on the ACT if taken before October 28, 1989, or a minimum composite score of 16 on the ACT if taken after October 28, 1989. **ACT scores must be on file with the Office of Admissions & Records at Holmes Community College prior to completing the Health Sciences application.**
- While college credit is not required for application to the program, applicants should provide a transcript from any regionally accredited school to determine if some classes meet the prerequisite and/or corequisite of the program.

After notification of acceptance, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. All information concerning the requirements below will be provided after class selection and/or during the mandatory orientation session:

1. Passage of physical examination per Health Examination Report
2. Passage of a healthcare criminal background check (done by MSBMT during proctoring of the MSLE)
3. Passage of drug screening (given at the college)

Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Career Technical Pathways **Mission Statement**

The Massage Therapy program is designed to prepare students for careers as professional massage therapists. The curriculum prepares students to develop knowledge and skills for practicing massage therapy. Core courses emphasize massage therapy principles, ethics, business application, pathology, anatomy and physiology, technique modalities, and kinesiology.

Program Accreditation

The Massage Therapy Program is licensed by the MSBMT with a current Non-Conditional License #1912.

Upon successful completion of the program, graduates will be eligible to sit for the Massage and Bodywork Licensing Exam (MBLEx) or the Mississippi Professional Examination 1 and 2 (MPE-1, MPE-2). MBLEx is administered by the Federation of State Massage Therapy Boards as the MPE-1 and MPE-2 are administered by the Mississippi State Board of Massage Therapy (MSBMT). Both are accepted by MSBMT for licensure in the state of Mississippi and at least one of the two accepted exams must be taken and passed to obtain licensure in MS as well as successful completion of the Mississippi State Law Exam (MSLE) also administered by the MSBMT.

Career Technical Pathways
Health Science Programs Pathway
Occupational Therapy Assistant Technology Program

Program Description

Occupational Therapy Assistant Technology is a five consecutive semester program of study that prepares an individual to work as a co-participant in the entire occupational therapy process, at the discretion of the supervising licensed occupational therapist. The occupational therapy assistant provides intervention pertinent to creating and promoting healthy lifestyles, restoring or habilitating a skill or ability, maintaining current level of function, modifying an activity to ensure success and addressing disability prevention.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Occupational Therapy Assistant Technology program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Be at least 18 years of age at time of program start date.
- Have official verification of a minimum composite score of 12 on the ACT if taken before October 28, 1989, or a minimum composite score of 16 on the ACT if taken after October 28, 1989. **ACT scores must be on file with the Office of Admissions & Records at Holmes Community College prior to completing the Health Sciences application.**
- Provide official transcripts from all schools and/or colleges attended to the Office of Admissions & Records. Applicants with any college credit must have a minimum grade point average of 2.0 on prerequisite courses completed to be considered for the program. Students may apply and be accepted prior to completion of prerequisite courses; however, prerequisite courses **MUST** be successfully completed prior to beginning program coursework.
- Complete and submit the Health Science Programs application (located in MyHolmes), selecting Occupational Therapy Assistant Technology, by the appropriate deadline.
- Must have successfully completed with a C or better the following courses **before program start date:**
 - o BIO 2514 Anatomy and Physiology I
 - o BIO 2524 Anatomy and Physiology II

Career Technical Pathways

When the deadline for the Occupational Therapy Assistant Technology applications closes, data analysis will provide a scoring for all eligible applicants, and candidates will be chosen according to ranking.

After notification of acceptance, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. All information concerning the requirements below will be provided after class selection and/or during the mandatory orientation session:

1. Passage of physical examination per Health Examination Report
2. Passage of a healthcare criminal background check
3. Passage of drug screening
4. Current and complete immunization record
5. Two-step TB skin test or blood draw
6. Initiation of Hepatitis B vaccination or declination form

Note: A felony conviction may impede one's placement for fieldwork and/or eligibility for certification and credentialing.

Program Curriculum

Once accepted into the program, students will progress through five consecutive semesters. A student must maintain at least a 75 in each course to progress to the next level. Students must complete all graduation and fieldwork requirements within 9 months following the completion of the didactic portion of the program. After successful completion of this program, students will earn an Associate of Applied Science (AAS) Degree and be eligible to take the National Certification Exam for Occupational Therapy Assistant.

***Courses required to complete program and graduation; if already completed, semester hours will be less.

Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Career Technical Pathways **Mission Statement**

The mission statement of the Occupational Therapy Assistant Technology program is to develop competent, ethical, and professional entry-level occupational therapy assistants to provide services for persons, organizations, and populations to promote health and participation through engagement in occupation. The academic and clinical opportunities provided by the program to the students are to achieve competency in written, oral and interpersonal communication, to demonstrate a thorough understanding of the OTR/COTA approach to client treatment, to implement effective treatment for clients throughout the life span, and to participate in the management of occupational therapy services.

Program Accreditation

The entry-level Occupational Therapy Assistant Technology program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA).

Physical Therapist Assistant Program

Program Description

The Physical Therapist Assistant (PTA) Program is a two-year program of study that prepares students to work within the practice of physical therapy under the supervision of a physical therapist. PTAs are employed in hospitals, clinic, rehabilitation centers, extended care facilities, home health agencies, and other health care settings. Admission to the program at Holmes Community College is selective and competitive. Upon satisfactory completion of the program, students are awarded the associate of Applied Science Degree. Graduates of the accredited PTA Program eligible to take the national physical therapy exam for PTAs, which is an essential part of the licensing process.

The PTA Program is a five consecutive semester program designed to prepare PTA Students with entry level skills. A student must achieve a grade of 78 on current semester PTA Course before advancing to the next semester. Students are also provided clinical experiences to facilitate the transition of learning in the classroom to the clinical setting. Students will be responsible for the travel expenses during completion of fieldwork experiences.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Physical Therapy Assistant program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Have official verification of a minimum composite score of 12 on the ACT if taken before October 28, 1989, or a minimum composite score of 16 on the ACT if taken after October 28, 1989. **ACT scores must be on file with the Office of Admissions & Records at Holmes Community College prior to completing the Health Sciences application.**
- Provide official transcripts from all schools and/or colleges attended to the Office of Admissions & Records. Applicants with any college credit must have a minimum grade point average of 2.0 on prerequisite courses completed to be considered for the program, if applicable.
- Complete and submit the Health Science Programs application (located in MyHolmes), selecting Physical Therapist Assistant Program, by the appropriate deadline.

Career Technical Pathways

When the deadline for Physical Therapist Assistant applications closes, data analysis will provide a scoring for all eligible applicants, and candidates will be chosen according to ranking.

After notification of acceptance, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. All information concerning the requirements below will be provided after class selection and/or during the mandatory orientation session:

1. Passage of physical examination per Health Examination Report
2. Passage of a healthcare criminal background check
3. Passage of drug screening
4. Current and complete immunization record

Note: Because a criminal conviction may prohibit a student from participating in clinicals and/or taking the required national licensure exam after graduation to practice as a PTA, a felony conviction or disqualifying event on the background check arranged by the PTA staff will likely disqualify the applicant from gaining program entry.

An AAS Degree may be earned at this point.

*This is a required course for completion of the AAS degree that will count toward class selection if a final grade of C or higher is submitted by the deadline for program application. This course is not a program prerequisite. Please note that only BIO 2514 and 2524 meet the A & P requirements for this program. If a student took A & P at another college, he/she must be sure that the courses will articulate to Holmes' BIO 2514 & 2524. Other A & P courses will not be accepted to count towards class selection or PTA graduation requirements.

**Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Mission Statement

The mission of the PTA program is to prepare graduates with the needed skills, knowledge, and attitudes to safely and effectively assist a physical therapist in providing physical therapy services. The PTA faculty believes that each student has potential for growth, is normally in a state of development, and is open to learning new ideas. The PTA Program intends to improve the quality of life in the community by implementing a quality education program to educate knowledgeable and marketable physical therapy assistants to serve the community.

The PTA Program curriculum includes a distribution of both general education and PTA courses to maximize the intellectual, psychosocial, and cultural development of each student. Emphasis is placed on the process of learning and critical thinking in order to produce graduates who are responsible and accountable for their own actions and continued learning. The PTA Program faculty advocates continuing education designed to meet specific learning needs of PTAs within the community as an essential component of the profession.

Career Technical Pathways Program Accreditation

The Physical Therapist Assistant Program at Holmes Community College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, VA 22305-3085: tele phone: 703.706.3245: email: Accreditation@apta.org; website: www.capteonline.org. If needing to contact the program/institution directly, please call 662.227.2379 or email myking@holmescc.edu.

Student Certification and Licensure

Graduates of the PTA Program are awarded the Associate of Applied Science Degree. Graduates are eligible to sit for the national certification examination for the Physical Therapist Assistant which is administered by the Federation of State Boards of Physical Therapy (FSBPT), 124 West South, 3rd floor, Alexandria, VA 22314: telephone: 703.229.3100.

After successful completion of the exam, the individual will be a licensed Physical Therapist Assistant (PTA). Most states require a license in order to practice. The state of Mississippi does require a license to practice as a Physical Therapist Assistant. The new graduate may be permitted to work as a Physical Therapist Assistant with a limited/temporary permit from the Mississippi State Board of Physical Therapy (MSBPT).

Health Science Programs Pathway
Practical Nursing Program

Program Description

The Practical Nursing Program prepares the individual to assist in providing general nursing care requiring basic knowledge of the biological, physical, behavioral, psychological, and sociological sciences; and of nursing procedures which do not require the skills, judgment, and knowledge required of a registered nurse. This care is performed under the direction of a registered nurse, advanced practice registered nurse (APRN), licensed physician, or dentist.

The Practical Nursing program is designed to prepare qualified men and women to become, upon completion of the prescribed course of study and satisfactory writing of the National Council Licensure Examination PN (NCLEX-PN®), Licensed Practical Nurses. The introductory semester(s) offers instruction and clinical in orientation to nursing care of clients across the lifespan, nursing care of selected clients, and body structure and function. The remaining semesters of training provide instruction and clinical experience for clients experiencing an alteration in health, the pediatric client, the maternal/newborn client, and the psychiatric client. Intensive preparation for the NCLEX-PN® and transitioning from student to employee is provided in the final semester. A certificate is awarded upon completion of the courses.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Practical Nursing program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Applicants for the Hybrid Option must have official verification of a minimum composite score of 15 on the ACT if taken before October 28, 1989, or a minimum composite score of 18 on the ACT if taken after October 28, 1989. **ACT scores must be on file with the Office of Admissions & Records at Holmes Community College prior to completing the Health Sciences application.**

Career Technical Pathways

- Applicants for the Full Time Day Track and the Evening and Weekend Track must have official verification of a minimum composite score of 12 on the ACT if taken before October 28, 1989, or a minimum composite score of 16 on the ACT if taken after October 28, 1989. **ACT scores must be on file with the Office of Admissions & Records at Holmes Community College prior to completing the Health Sciences application.**
- Provide official transcripts from all schools and/or colleges attended to the Office of Admissions & Records. Applicants with any college credit must have a minimum grade point average of 2.0 on prerequisite courses completed to be considered for the program. Students may apply and be accepted prior to completion of prerequisite courses; however, prerequisite courses **MUST** be successfully completed prior to beginning program coursework.
- Complete and submit the Health Science Programs application (located in MyHolmes), selecting Practical Nursing Program, by the appropriate deadline.
- Must have successfully completed with a C or better the following courses **before program start date**:
 - BIO 2514 Anatomy & Physiology I
 - BOT 1613 Medical Terminology I or BIO 1813 Medical Terminology for Health Professions

When the deadline for Practical Nursing applications closes, data analysis will provide a scoring for all eligible applicants, and candidates will be chosen according to ranking.

After notification of acceptance, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. All information concerning the requirements below will be provided after class selection and/or during the mandatory orientation session:

1. Passage of physical examination per Health Examination Report
2. Current certification American Heart Association Basic Life Support CPR
3. Passage of a healthcare criminal background check
4. Passage of drug screening
5. Current and complete immunization record
6. QuantiFERON Gold test and if applicable a Chest X-ray

Surgical Technology Program

Program Description

The Surgical Technology Program is an instructional program that prepares an individual to serve as a member of the surgical team to work with surgeons, anesthesiologists and certified registered nurse anesthetists, registered nurses, and other surgical personnel in delivering patient care and assuming appropriate responsibilities before, during, and after surgery. This program includes the education of all aspects of surgical technology including the role of second assistant & circulators.

The Surgical Technology Program offers classroom and clinical experiences for the entry-level surgical technologist which includes courses in aseptic technique, operative procedures, patient care, anatomy and physiology, microbiology, pharmacology, medical terminology, medical/legal aspects, technological sciences (computer, electricity & robotics), and related general education to help the student fulfill his/her role as an important, knowledgeable member of the surgical team. The goal of the Surgical Technology Program at Holmes College is to prepare competent entry-level surgical technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains. Further, the Surgical Technology Department will provide students with the opportunity to develop skills and knowledge necessary to gain employment as a surgical technologist and become a contributing member of the healthcare team.

Application and Admission Process

Applicants must first complete an admission application to Holmes Community College and be fully admitted. To be considered for acceptance into the Surgical Technology program, a student must complete the following steps:

- Be fully admitted to Holmes Community College. See **ADMISSION REQUIREMENTS** in Holmes bulletin or on Admissions webpage.
- Be at least 18 years of age at time of program start date.
- Have official verification of a minimum composite score of 12 on the ACT if taken before October 28, 1989, or a minimum composite score of 16 on the ACT if taken after October 28, 1989. **ACT scores must be on file with the Office of Admissions & Records at Holmes Community College prior to completing the Health Sciences application.**

Career Technical Pathways

- Provide official transcripts from all schools and/or colleges attended to the Office of Admissions & Records. Applicants with any college credit must have a minimum grade point average of 2.0 on prerequisite courses completed to be considered for the program. Students may apply and be accepted prior to completion of prerequisite courses; however, prerequisite courses **MUST** be successfully completed prior to beginning program coursework.
- Complete and submit the Health Science Programs application (located in MyHolmes), selecting Surgical Technology Program, by the appropriate deadline.
- Must have successfully completed the following courses **before program start date**:
 - BIO 2514 Anatomy & Physiology
 - BIO 2524 Anatomy & Physiology II
 - ENG 1113 English Composition I
 - PSY 1513 General Psychology or SOC 2113 Introduction to Sociology

When the deadline for Surgical Technology applications closes, data analysis will provide a scoring for all eligible applicants, and candidates will be chosen according to ranking.

After notification of acceptance, the student will be required to provide documentation of the following requirements prior to the start of the program. Students will be responsible for fees or costs associated with these requirements. Career Technical Pathways **Mission Statement**

The Surgical Technology program produces surgical technologists to meet the needs of hospitals and other health facilities in the nine-county region of Holmes Community College as well as surrounding counties. The program provides education in the applied roles of all aspects of surgical technology, including the role of second assistant and circulator, to both traditional and non-traditional students to serve as a member of the surgical team to assist in delivering patient care and to assume appropriate responsibilities before, during and after surgery.

Program Accreditation

The Associate of Applied Science Degree in Surgical Technology will be awarded the successful graduate of the Surgical Technology program. Qualified graduates may apply to the National Board of Surgical Technology and Surgical Assisting (NBSTSA), to take the Surgical Technologist Certifying Examination to become a Certified Surgical Technologist. Successful completion of any semester of study must include 75% mastery of each subject in order to progress to the next semester. Some courses may require training at local clinical facilities. Graduation requirements include completion of the prescribed clock hours as mandated by the Mississippi Community College Board. The Surgical Technologist Program at Holmes Community College is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org), upon the recommendation of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA).

The address for the commission is as follows: Commission on Accreditation of Allied Health Education Programs (CAAHEP) 9355 – 113th St. N, #7709 Seminole, FL 33775 727-210-2350

Instruction includes the diagnosis of malfunctions of all eight areas of ASE/NATEF certification (Engine Repair, Electrical & Electronic Systems, Engine Performance, Brakes, Steering & Suspension Systems, Manual Drive Trains & Axles, Automatic Transmissions & Transaxles, Heating & Air Conditioning). Automotive Technology may be taught as either a Technical Certificate program, an Advanced Technical Certificate program, or an AAS Degree program. The curriculum for Postsecondary Automotive Technology is based upon the task list published in ASE Certification for Automobile Training Programs and the National Automotive Technicians Education Foundation, Inc. (NATEF). This task list serves as a national standard for certification of automobile technician training programs and is regularly reviewed and validated by technicians and engineers in the automotive industry.

Assistance with math and/or reading will be available on a co-curricular basis to certificate-seeking students who lack entry-level skills in math and/ or reading.

Collision Repair Technology is an instructional program designed to prepare students for entry-level into the collision repair and refinishing trade. Upon completion of this program, the students will be prepared for beginning positions as body, frame, and refinish technicians. Students will be provided theory and practical repair and refinish work beginning with basic applications and progressing on to heavy collision repairs requiring major body and frame alignment and panel replacement. The instruction includes all phases necessary to teach collision repair including glass replacement, welding, hardware and trim items replacement, cosmetic repairs, and structural repairs. Industry standards referenced are from the 2016 ASE/NATEF Collision Repair & Refinish Standards (Painting and Refinishing, Non-Structural and Structural Analysis and Damage Repair, Mechanical & Electrical Components).

*Approved Technical Electives: ENT 1154, ATT 1124, ACT 1003, IMM 1113, WLT 1173, WBL 1913, or as approved by advisor.

The **Architectural Engineering Technology** program educates students in the process of producing design projects from schematics through construction. The program is designed to prepare its graduates for employment in architectural related firms, including architectural offices, design building firms, engineering firms, governmental agencies, real estate developers, planning offices, and architectural material suppliers and manufacturers. The program offers a Technical Certificate, an Advanced Technical Certificate, and AAS Degree in Architectural Engineering Technology. Graduates may have the option of transfer leading to a Bachelor of Science Degree (BS) in Architectural Engineering Technology.

*Approved Technical Electives: DDT 1173, 1183, 1413, 2153, 2253 2263, 2713, 2823, 291(1-3), ENT 1154, 1183, 1323, 2133, 2243, 2253, 2263, 2343, 2353, 2363, 2643, 2713, 291(1-3), Work-Based Learning

Assistance with math and/or reading will be available on a co-curricular basis to certificate-seeking students who lack entry-level skills in math and/ or reading.

Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

The **Construction Engineering Technology** program emphasizes the management aspects of the construction industry. The key professional in this area of expertise is the construction manager who has the responsibility for planning, scheduling, and building projects designed by architects and engineers. Graduates of this program are employed in both office and field positions in the commercial, industrial, utility, highway, and residential markets. The program offers a Technical Certificate, an Advanced Technical Certificate, and AAS Degree in Construction Technology. Graduates may have the option of transfer leading to a Bachelor of Science Degree (BS) in Construction Technology.

**Approved Technical Electives: ENT 1154, ENT 1233, ENT 1523, ENT 2133, ENT 2453, ENT 2723, ENT 291(1-3), WBL 191(1-3) and WBL 192(1-3)

The **Drafting & Design Technology** program of study is designed to provide specialized occupational instruction in all phases of drafting technology in order to prepare students for positions in the drafting field. A combination of class work and laboratory experience is stressed. Instruction includes computer aided design, architectural design, civil planning, 3-D modeling, and manufacturing.

Upon successful completion of this curriculum, the graduate will earn a Technical Certificate, an Advanced Technical Certificate, or an Associate of Applied Science Degree (AAS) in Drafting & Design Technology. The curriculum may also have the option of transfer to a four-year university offering a related course of study thereby leading to a Bachelor of Science Degree (BS).

Heating, Ventilation, Air Conditioning, & Refrigeration Technology is a post-secondary instructional program that prepares individuals to work in engineering departments or private firms installing, maintaining, and operating small or medium air conditioning, heating, and refrigeration systems. Instruction prepares individuals to work in a commercial setting performing special tasks relating to designing ductwork, assembly, installation, servicing, operation, and maintenance of heating, cooling, and refrigeration systems according to the standards of the American Society of Heating, Refrigeration, and Air Conditioning Engineers, Inc. and Air Conditioning Contractors of America (ACCA), Air-Conditioning Heating Refrigeration Institute (AHRI), and others. Included are air conditioning, heating, and refrigeration devices; equipment, techniques, and systems; and maintenance and operation of these systems.

Assistance with math and/or reading will be available on a co-curricular basis to certificate-seeking students who lack entry-level skills in math and/or reading.

Electro-Mechanical Technology is a technical program designed to prepare students for entry-level employment as multi-skilled industrial maintenance technicians. Electro-mechanical technicians are responsible for assembling, installing, and maintaining/repairing electrical, mechanical, and automated equipment used in manufacturing or industrial environment. Students receive basic instruction in a wide variety of areas including safety, machinery maintenance and trouble-shooting/service, blueprint reading, basic machining, fundamentals of industrial electricity, CAD, fluid power, industrial controls, and PLC programming.

Precision Machining Technology is an instructional program that prepares individuals to manufacture precision parts on machines such as lathes, grinders, drill presses, milling machines, and Computer Numerical Control (CNC) equipment. Included is instruction in making computations related to work dimensions, testing, feeds and speeds of machines. In addition, individuals use precision measuring instruments such as layout tools, micrometers and gauges; machining and heat-treating various metals; and laying out machine parts. Also included is instruction in the operation and maintenance of computerized equipment.

*Approved Electives: MST 1213, 1223, 1233, 1243, 1252, 1263, 1623, 2513, 2523, 2533, 2542, 2552, 2733, 2813, 291(1-4), 292(1-6), WBL 191(1-3), 192(1-3). Any other technical or academic course approved by the advisor.

The **Welding and Cutting Technology** program prepares students for entry level employment in the field of welding and cutting. Students will develop skills in the use of arc welders, oxyacetylene torches, and plasma cutting machines. Gas tungsten arc welding techniques are taught on both ferrous and nonferrous materials. Classroom instruction is provided in blueprint, welding, welding theory, and welding machines.

*Approved Electives: WLT 1162, WLT 191(1-6), WLT 192(1-6), WLT 2812, WLT 2913, or any other technical or academic course approved by advisor.

Career Technical Pathways
Professional Studies Pathway

An education in one of the **Professional Studies Pathway** programs can prepare graduates for a wide variety of career opportunities. The diverse offerings – Business Technology, Conservation Law Enforcement, Cosmetology, Criminal Justice Administration, Culinary Arts Technology, Forest Technology, Information Systems, and Paralegal – can allow for development of specific skills in as little as one year. With opportunities for a Career Certificate, Technical Certificate, Advanced Technical Certificate, or Associate of Applied Science in many of these programs, they are a great fit for those looking to enter the workforce quickly. Many of these program options also offer several methods of delivery – including face-to-face, hybrid, and online. Professional Studies Pathway programs prepare graduates for a successful career in a professional setting.

Conservation Law Enforcement Technology is a two-year program of study that prepares the graduate for entry-level employment as a Conservation Law Enforcement Officer (game warden) in the state of Mississippi. The program blends technical courses in forestry and academic courses in criminal justice with other academic courses, including the core. The Associate of Applied Science degree is earned upon successful completion of the program.

Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

The **Cosmetology** program prepares individuals with the theory and skills to care for hair, nails, and skin with emphasis on hygiene, sanitation, customer relations, and salon management. Satisfactory completion of the courses qualifies students for the Mississippi State Board of Cosmetology certification examination. The Cosmetology curriculum is designed to comply with the standards of the Mississippi State Board of Cosmetology and the requirement for 1500 contact hours for students. Students are required to receive 230 hours of theory (a minimum of six hours per week throughout the entire period of instruction, conducted in a separate classroom by a licensed instructor), 1200 hours of supervised skill preparation and clinic work, and 70 hours assigned at the instructor's discretion as needs of individual students dictate. Successful completion of the program entitles students to a Cosmetology Certificate and qualifies them for licensing examinations as cosmetologists, estheticians, manicurists, conducted by the Mississippi State Board of Cosmetology.

Students applying to the cosmetology program must have a minimum of a 14 on the ACT or appropriate ACCUPLACER test scores. In addition, students applying to the cosmetology program must meet the requirements for prior educational credit as established by the MS State Board of Cosmetology for the state licensure exam. In order for prior education (typically a diploma from a regionally-accredited high school or an official GED) to be verified, applicants must submit copies of their transcripts (high school and/or college) to the Office of Admissions by August 1. Only applicants whose education is accepted by the State Board of Cosmetology will be eligible to enter the program. Transcripts may be mailed to the Holmes CC Cosmetology Department, PO Box 409, Goodman, MS 39079.

Assistance with math and/or reading will be available on a co-curricular basis to certificate-seeking students who lack entry-level skills in math and/or reading.

Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Forest Technology is an intensive program of instruction and training to prepare individuals for service in different aspects of forest management operations. Major topics of the program include: the role of foresters in society; the identification and valuation of forest and ornamental woody species; the manipulation of forest stands to produce specific benefits; the impacts of fire, insects, and disease in forest stands; forest measurement and mapping methods; and timber harvesting and utilization systems. Emphasis throughout the program is placed upon developing strong communication skills through written and oral assignments and upon developing a professional attitude of conduct.

Enrollment in a minimum of 15 hours each semester is recommended for eligibility for state aid, institutional scholarships, and the tuition break.

Culinary Arts Technology program provides a solid foundation in the methods and science of cooking through exposure to classical American and international cuisine as well as the art of baking and pastries. Special emphasis is placed on culinary tools, equipment, techniques, and specialty ingredients. The heart of the Culinary Arts Technology program is hands-on lab instruction by a chef instructor in a commercial kitchen.
